

Split Fillets

U.S. Farm-Raised Heartland Catfish fillets are available in shank and split cuts, suitable for any fish recipe. Whether fried, grilled, broiled or baked, Heartland Catfish fillets are the perfect cut.

SPLIT FILLETS

Our split fillets provide a smaller portion of meat that cooks quickly and makes controlling portion sizes easier than ever. Splits are cut from whole shank fillets using an Intelligent Portioning Machine to yield two pieces of equal mass.

PACKAGING OPTIONS

FRESH PACKED ON ICE

Our innovative processing, packaging and shipping methods guarantee our customers receive the highest quality catfish products available. Computers regulate air and water temperatures in all areas of the plant to discourage bacteria growth and product degradation. We also operate our own fleet of refrigerated tractor-trailers to deliver our products throughout the United States. Stored at the proper temperatures, our fresh products are safe to consume up to 14 days from packaging.

-  Packaged at peak freshness
-  No added preservatives
-  Attractive appearance for display
-  Maintained texture and moisture

INDIVIDUALLY QUICK FROZEN (IQF)

Our frozen products are Individually Quick Frozen (IQF) in a matter of minutes to preserve their freshness and ensure our customers receive superior-quality catfish year-round. Heartland Catfish Company is able to freeze all of our production every day in company-owned storage freezers. In fact, we have the largest in-house storage capacity in the industry, at more than 2,000,000

-  Preserved freshness and appearance
-  Maintained nutritional value
-  Reduced cross-contamination
-  Safe shipping
